Drive Innovation

Be future-ready and design new use cases depending on your business requirements.

About EPS

Electronic Payment and Services (EPS) is India's leading payment technology services provider. It offers solutions such as ATM outsourcing, digital payments, and an MSME platform that grants access to digital finance and value-added services. EPS started in 2011 and became a leader in ATM outsourcing. It later expanded to offer digital payment solutions to banks and non-banking institutions. We closely follow global security standards such as PCI DSS 3.2.1, ISO 9001:2015, and ISO 27001:2013. This approach makes our solutions resilient against emerging threats in the digital landscape.
