

Profit from Bitcoin at your ATMs

Now your ATMs can do more than dispense cash – **Kahuna** and **Cardtronics** have teamed up with **LibertyX** to enable Bitcoin purchases at your ATMs.

Earn a competitive commission on each Bitcoin purchase

The benefits of adding Bitcoin to your ATMs are numerous:

- ✓ Exciting new revenue source
- ✓ Enhances the value of existing ATMs
- ✓ Attracts new customers
- ✓ No new hardware required
- ✓ No set-up fees or ongoing fees
- ✓ Easy to get started

Consumers are searching for ways to seamlessly purchase Bitcoin. With the LibertyX app and a LibertyX-enabled ATM, they can make quick purchases using a debit card, with the option to receive a completed purchase in minutes, faster than most other methods.

New Revenue, Simplified

Kahuna and Cardtronics make it easy to get started with a simple software and TID update. In addition to Bitcoin sales, our ATM+ package can drive other new revenue opportunities on properly equipped ATMs including enhanced balance inquiry revenue, currency conversion, and more. Our online marketing support will help you create awareness of Bitcoin purchase options, further enhancing revenue potential.

Call your relationship manager today to get started.
