Physical ATM Attack Trends

Physical ATM Attack Trends

ATM Crime is up
165%

Why ATMs are Crime Targets

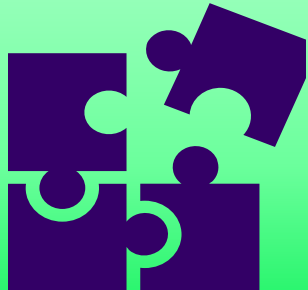

Store more CASH than many retailers

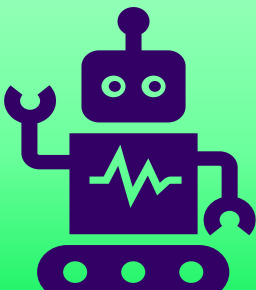

Growth in # of Machines = Growth in Crime!

Isolated Areas = Fewer Witnesses

Most ATMs are Standalone / Non-Reinforced

NO Sophisticated Tools or Knowledge required

Low Risk of Capture

Low Legal Penalties

Easy and Quick to Perpetrate the Crime

The True Cost of Physical ATM Attacks

Measurable Costs >>

- Cash / machine loss
- Collateral damage, repair to property (can be extensive)
- Risk to life / safety of patrons
- Time to remedy situation = lost business

Immeasurable Costs >>

- Reputational damage
- Social responsibility/danger to customers
- Location closures and downtime of branch/store
 - Long-term closures force patrons to change habits

Best Practices to Protect Your ATMs

Layered Security

- Protecting ATMs takes a layered strategy
- Criminals get creative to defeat solutions
- Deterrents like cameras, alarms, bollards, and swing bars help to deter crimes
- When criminals overcome deterrents, physical solutions like GPS tracking provide a last line of defense

Detect

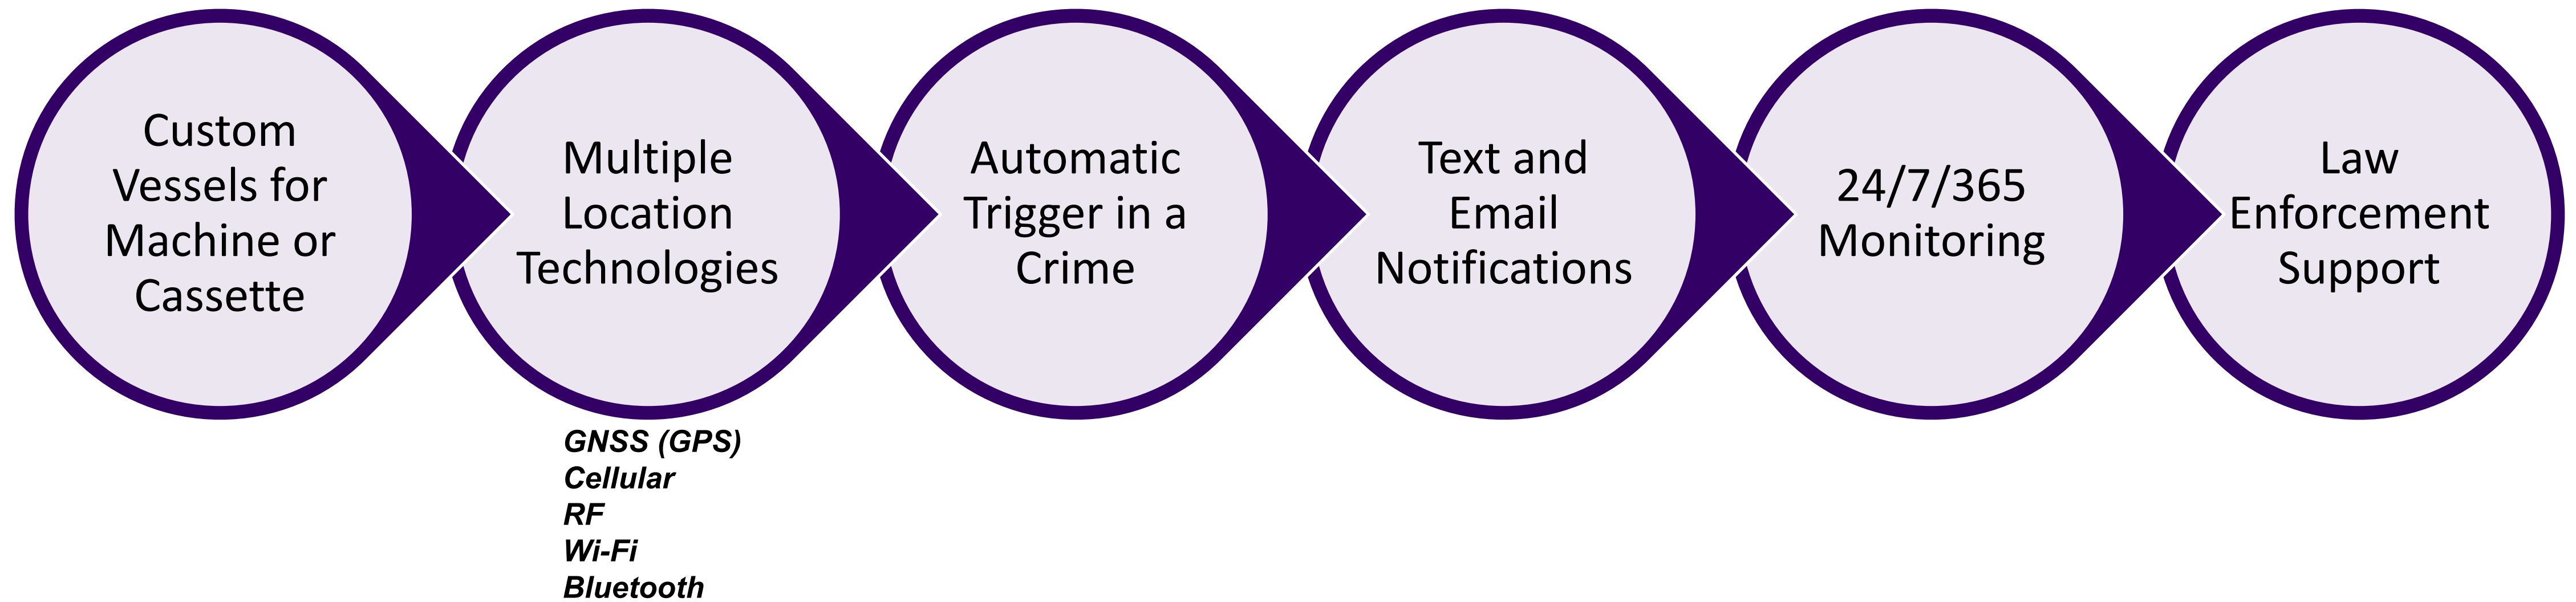

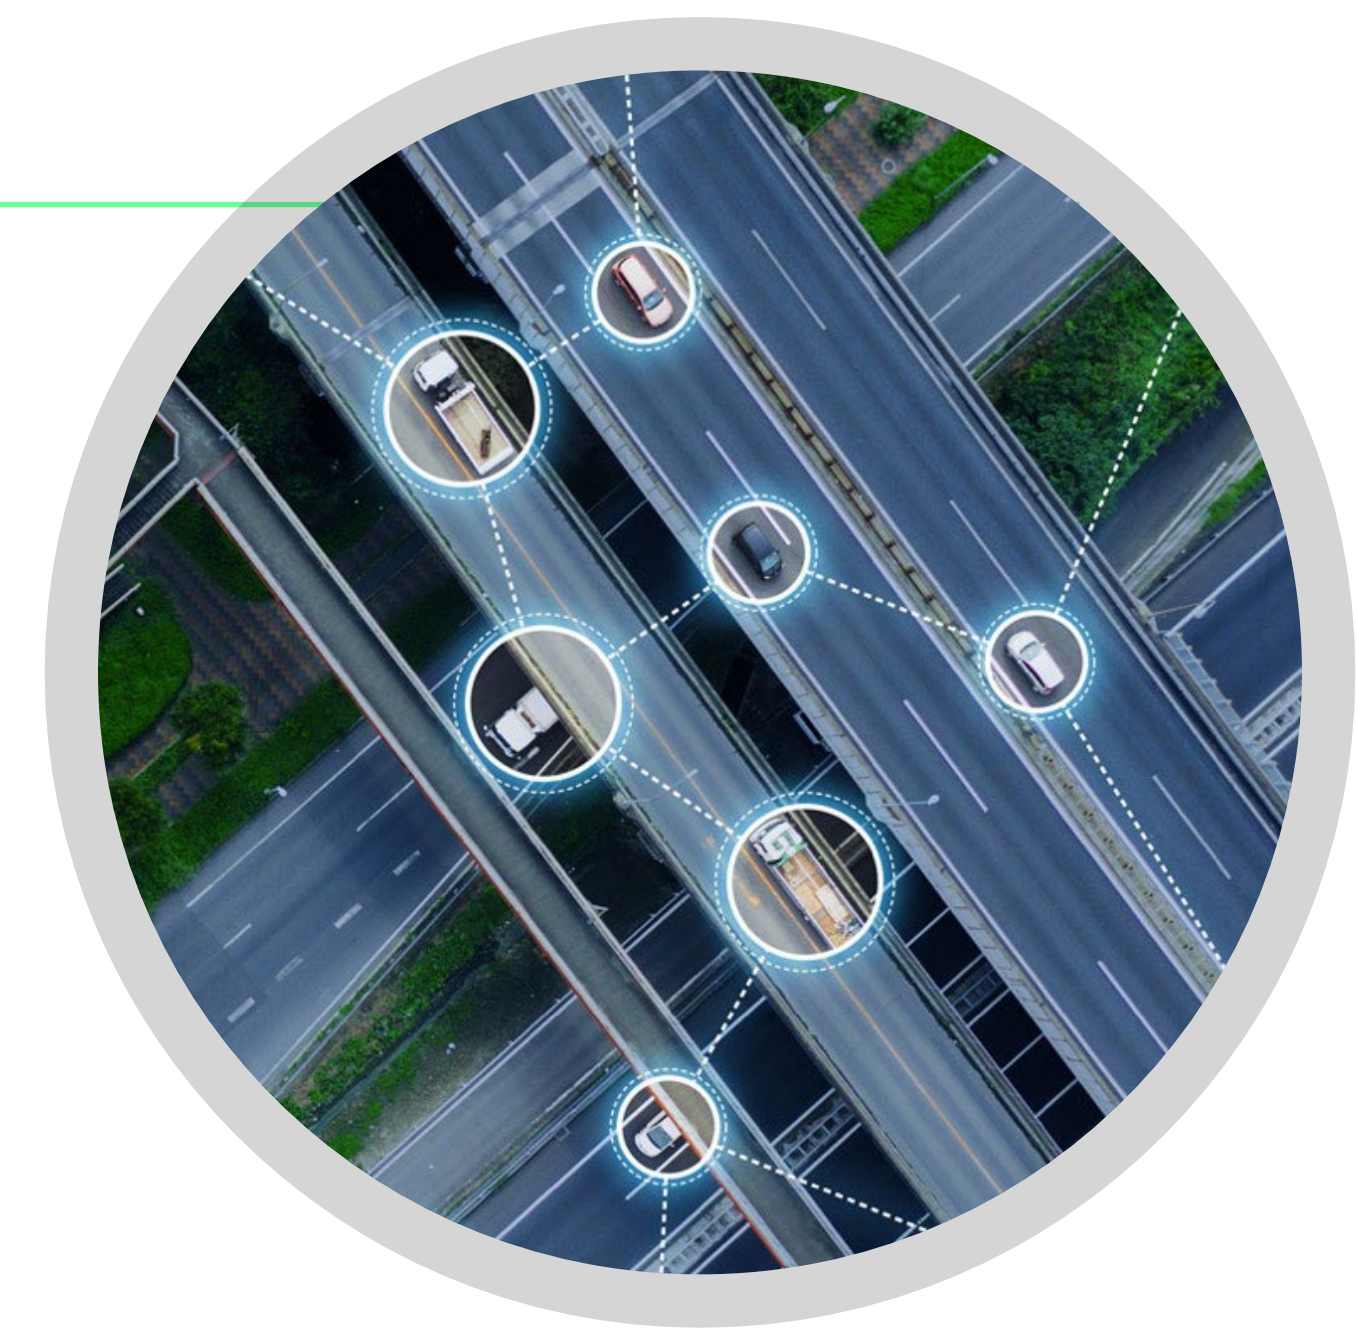

Deter

Deny

Detain

GPS Technology is More than GPS

Combined Key Technologies and Services for Superior Performance

How GPS Works

- The GPS Device is hidden in the ATM and/or Cassette
- The device triggers automatically when theft occurs
- Local law enforcement, the customer, and our 24/7 are alerted
- Live location updates are generated every 6 seconds for accurate, up-to-date tracking
- Criminals apprehended and assets recovered, *on average, in less than 20 minutes*

GPS Tracking – A Closer Look

Other Key Features for GPS ATM Protection

-  Seamless ATM operation, service and replenishment
-  Protects cassettes when in or outside of the ATM
-  Mitigate false alarms or accidental activations
-  Adaptable to many types of cassettes
-  Installation and maintenance aligned to other managed services

3SI GPS Solutions

ATM Tracker™

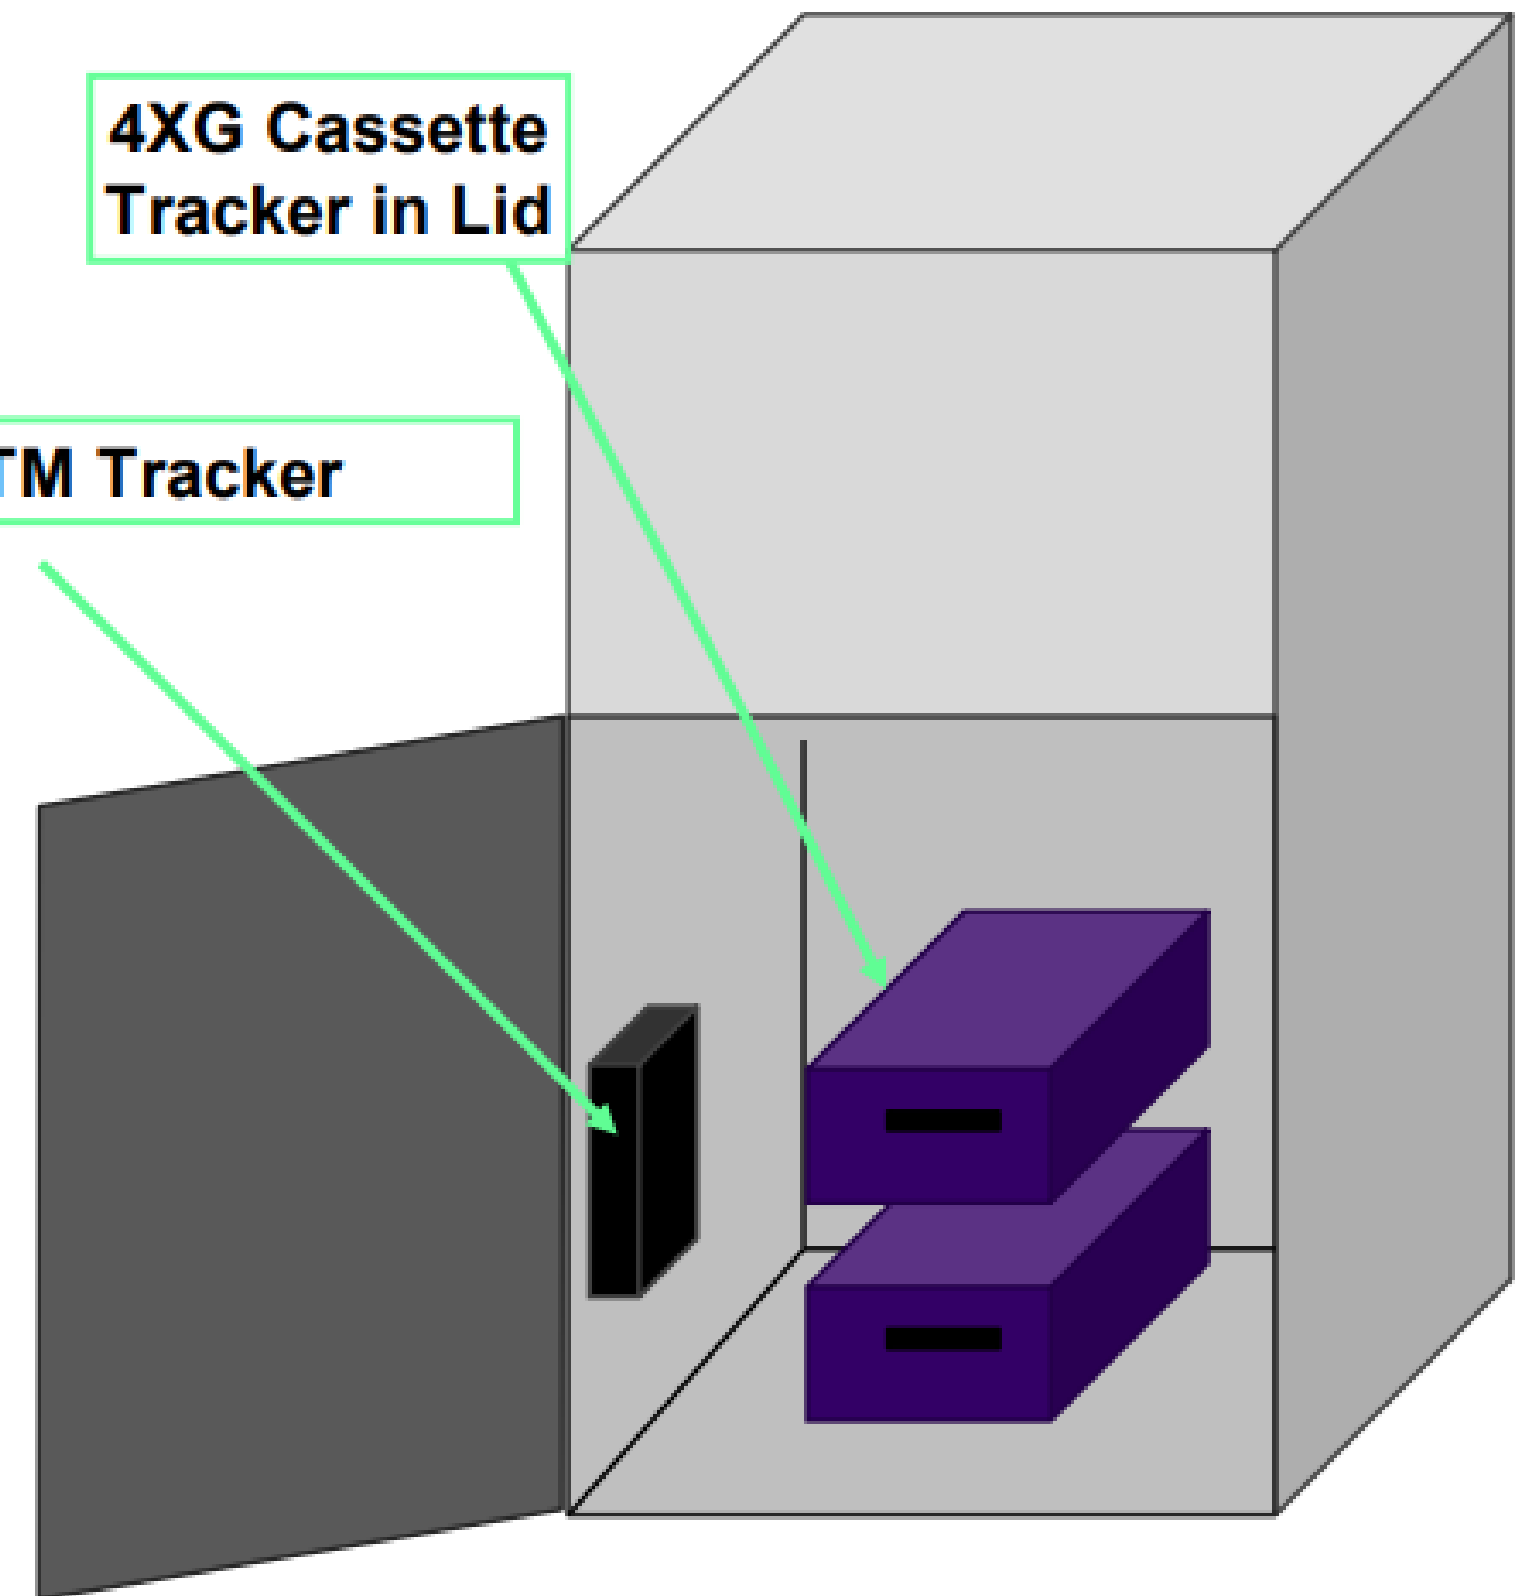

Core Solution for Machine Protection

- Proven technology
- In machine protection
- Works as hub for Cassette Tracker
- Supports other accessories

Cassette Tracker™

Add-On Solution for enhanced Cash Cassette Protection

- In cassette protection
- Wireless communication
- Safezone technology
- Protects against all machine crime types

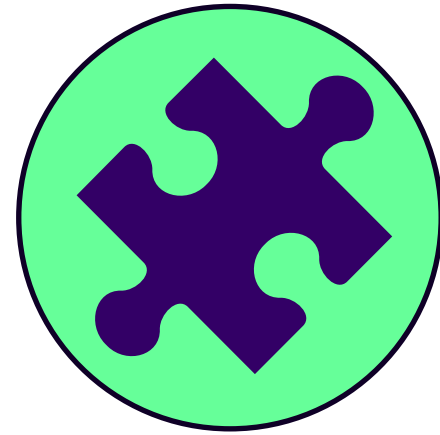

Case Study: ATM and Cassette Tracker

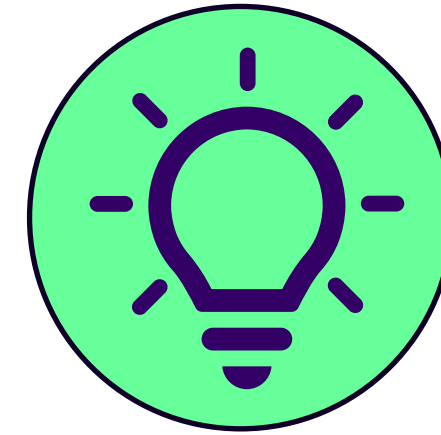

Institution

- Major North American Bank with remote ATMs and on-site branch ATMs

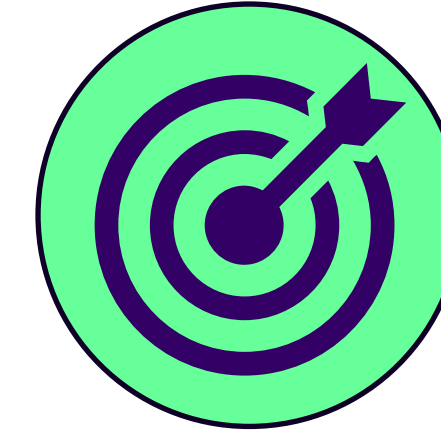

Challenges

- Surge in ATM crime – all types
- Criminals breaking into the machines and attacking technicians to steal the cassettes loaded with cash

Solution

- 3SI ATM Tracker & Cassette Tracker
- Each cassette protected

Results – Garland, TX

- Technician servicing the bank's ATM was **attacked** in broad daylight
- **\$400,000+** in cash stolen
- Local police responded to the location data provided by the GPS solution
- Suspects **dumped the cash** when trying to evade police
- **\$400,000 or 99% recovery**

Crime Snapshot

ATM – Robbery– November, 2023

****Crime Deterred****

☐ Location: Dallas, TX

☐ EVENT SUMMARY:

- Multiple suspects used a **stolen front-end loader** to knock an ATM off its base, and load it into a **stolen pickup truck**
- Police were alerted to the **3SI ATM Tracker** and followed the suspects
- Upon hearing sirens, suspects **abandoned the stolen truck and ATM**
- **All cash was recovered** and the ATM returned to the original location

Crime Snapshot

ATM – Robbery– October, 2023

Arrests Made

☐ Location: Houston, TX

☐ EVENT SUMMARY:

- **ATM** stolen from a bank in the early morning during a burglary.
- The ATM was equipped with an **ATM Tracker**, which alerted police and 3SI Tracking Support.
- **3SI Tracking Support** contacted TX Houston PD and Comm, and provided tracking assistance.
- 2 of the 3 suspects were apprehended on scene, and a full recovery was made.

Stop Downstream Crime

When a 3SI GNSS/GPS Tracking device is used in a crime event, the average track to arrest time is 20 minutes or less with an average 70% arrest rate.

Arrests stop down stream crime events –

There is one heist every 3 hours, many of which are conducted by the same serial criminals

Arrests save investigative expenses

Arrests close other open cases

Arrests enhance staff safety

Arrests improve community

How We Help Banking

Protect

Keep Staff Safe

Even with reduced personnel levels

Protect Cash & ATMs

Against robbery, burglary, break-ins and theft

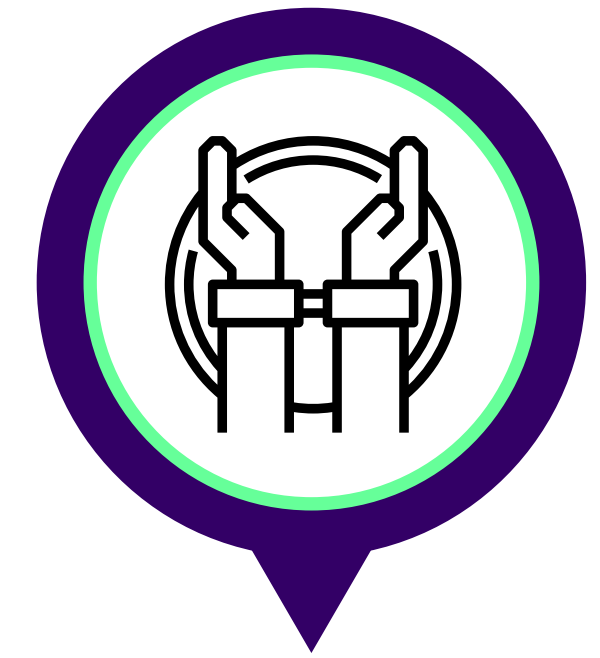

Recover

Reduce Losses

To branches

Recover Stolen Cash

To protect bank assets

Apprehend

Stop Downstream Crime

By taking dangerous repeat criminals off the street
